

Gabion baskets - stone walls made of double bar grating panels

Gabion baskets - stone walls (with and without fence posts)

The gabion baskets made by Van Merksteijn excel both in stability and durability. This high quality is ensured by the use of top-quality materials and their careful processing using state-of-the-art production techniques. Combined with our fencing systems, these gabion baskets and stone walls made of double bar grating panels with meshes of 50 x 200 mm are a modern and optimum solution to give a personal touch to your garden and plot of land. Detached or integrated, with or without fence posts, our modern double bar grating panels create a beautiful and natural harmony with the most diverse filling materials.

Technical specifications of the gabions:

- Horizontal wires: 2 x ø 8 mm
- Vertical wires: 1 x ø 6 mm
- Mesh size: 50 x 200 mm
- Height: from 600, 800, ... to 2,400 mm (without excess length on top)
- Width: 1,000 or 2,000 mm (standard sizes)
- Depth: 250 mm
- Corrosion protection: hot-dip galvanised in hot zinc bath according to DIN EN ISO 1461
- Spacers: the spacers are securely welded in as wires and prevent that the gabion baskets are deformed when being filled

Possible variants:

- Standard gabion baskets with or without fence posts
- Lids and bottom panels can be delivered as option
- Corner gabion baskets with an angle of 90°, welded in one piece
- T-shaped gabion baskets, welded in one piece
- Shapes according to your plan

*Our specialty: Gabion baskets manufactured to size!
 Dimensions up to 3,000 mm wide or high are no problem at all!*

Existing fences with double bar grating panels can be extended or converted in order to create a stone wall.
